## GUIDELINES

### Liquor license:

**Option 1:** Espaces Dalhousie provide 100% of the liquor and drinks. Drinks are served by Espaces Dalhousie staff during the cocktail and by the caterer staff during the meal.

**Option 2:** The client or the caterer can provide the liquor license. If this is the case, the caterer takes care of everything.

**Setup:** Setup can be done the day before if the room is available, or on the same day (or in the evening).

**Deliveries:** Upon arrival, the person in charge should go to the welcome desk and talk to the security agent. The security agent will then confirm which door to use for the catering equipment as there is a door at each end of the building.

**Availability:** Espaces Dalhousie are open throughout the year, even during cruise season. When the event is confirmed, it can not be canceled once signed. Even if there is a cruise ship scheduled for arrival, they can still accommodate a group as they have 2 ramps and know the schedules over a year and a half in advance.
